MIC III • Clinical Endometriosis Center Level III •
Certified Specialist for Urogynecology Level II (AGUB II) •
Certified Trainingcentre of the German Society
of Gynecological Endoscopy (AGE)

International Workshops for progressive gynecological endoscopy

31st March – 2nd April or 15th – 17th September 2025
Hamburg, Germany

Preface

Dear colleagues,

Minimally Invasive Surgery plays an important role in Gynecology and the most important role in our daily surgical routine.

The "Frauenklinik an der Elbe" in Hamburg, Germany was founded in the early 1980ies and is specialized in ambulatory gynecological endoscopic procedures.

In the early years our founders co-pioneered gynecological endoscopy and in the last decades we co-developed various surgical techniques and instruments. Today our surgical spectrum includes almost all fields of gynecological endoscopy (i.e. benign gynecology, endometriosis, urogynecology, gynecological oncology).

With around 12.000 surgeries annually, the Frauenklinik an der Elbe is one of the largest institutions of its kind worldwide.

Additionally we are committed to teach endoscopy and share our clinical experience with gynecologists. We trust in the benefit of sharing and exchanging surgical techniques and knowledge with colleagues, also for our benefit.

The German Working Group of Gynecological Endoscopy (AGE) strives for medical and surgical excellence and has established a graded certification process in Minimally Invasive Surgery (MIC) for their members. Amongst the number of performed laparoscopic surgeries, attendance at endoscopic meetings, participations in endoscopic workshops and trainings and visits to

other hospitals are part of the MIC certification criteria, which range from MIC I to MIC III.

Experienced MIC surgeons can establish teaching and training centers under regulations of the AGE. Our institution is one of the twenty-two defined AGE teaching centers in Germany.

Our workshop curriculum of basic and advanced courses is based on the concept of the AGE and fulfills all requirements for the AGEs MIC accreditation.

With 5 colleagues having the highest accreditation MIC III we guarantee clinical excellence, experience and high quality practical training in small groups.

During the course, you will join us in theatre, attend all relevant hysteroscopic and laparoscopic surgeries and have a close interaction with the surgeon and theatre staff. Because of our high number of performed surgeries, you can change within the theatres to follow the procedures of your preference.

Additionally, presentations on surgical techniques and theoretical knowledge will provide you with the latest medical evidence.

We are looking forward to welcoming you in Hamburg at the Frauenklinik an der Elbe.

Yours sincerely
the team of the "Frauenklinik an der Elbe"

Team Frauenklinik an der Elbe

A. Nugent
MIC III,
Specialist for Gynecologic Oncology

P. Biel
MIC III, Head of the Training Center,
Specialist for Gynecologic Oncology

S. Jürgens
Specialist for Urogynecology

O. Buchweitz
MIC III, Head of the Endometriosis
Center Level III,
Specialist for Gynecologic Oncology

M. Bazargan
MIC II,
Specialist for Urogynecology

A. Hackethal
MIC III, Board Member of the AGE,
Specialist for Gynecologic Oncology

O. Brummer
Head of Colposcopy
and Cervical Dysplasia

C. Bormann
MIC II, Specialist for Colposcopy
and Cervical Dysplasia

M. Jaekel
MIC III, AGUB II

L. Kaddouri
MIC II, Specialist for Urogynecology,
Specialist for Colposcopy
and Cervical Dysplasia

R. Tjandra
Specialist for Colposcopy
and Cervical Dysplasia

J. Rupert
Specialist for Colposcopy
and Cervical Dysplasia

F. Hoellen
MIC II

Program

Courses according to the training concept of the AGE

1st day

- 08:00 - 08:30 Welcome - Introduction
- 08:30 - 13:00 Live surgery – Hysteroscopy with the Princess Resectoscope and RESECTION MASTER | Hystero- and Pelvitainer | Hands-on Tutorial for laparoscopic suturing techniques
- 13:00 - 14:00 Lunch
- 14:00 - 18:00 Lectures:
Theory of diagnostic and operative laparoscopy | hysteroscopy
- 18:30 Corporate Dinner
by invitation of Richard Wolf

2nd day

- 08:00 - 13:00 Live surgery – Laparoscopic Hysterectomy (TLH) with SecuFix | Hystero- and Pelvitainer | Hands-on Tutorial for laparoscopic suturing techniques
- 13:00 - 14:00 Lunch
- 14:00 - 16:00 Lectures:
Theory of diagnostic and operative laparoscopy | hysteroscopy
- 16:00 Discussion

3rd day

- 08:00 - 13:00 Live-Surgery – TLH with Sentinel lymph node biopsy using System green
- 13:00 - 13:30 Lunch
- 13:30 - 15:00 Discussion: Exchange of experience and topics simulated by OR
- 15:00 - 15:30 Presentation of certificates

Optional: 3rd day*

- 08:00 - 15:00 Laparoscopic Urogynecology at Helios Mariahilf Klinik, Hamburg-Harburg

*Binding registration required in advance

Gynecological surgeries your able to attend during the course

- **Laparoscopic surgeries**

infertility diagnosis | fertility operation | adhesiolysis
 | endometriosis | retroperitoneal surgery | adnexal
 findings (cystectomy, oophorectomy, adnexectomy)
 | PCO syndrome | myoma resection | hysterectomy
 (TLH) | supracervical hysterectomy (LSH)

- **Laparoscopic Hysterectomy**

total laparoscopic hysterectomy (TLH) | supracervical
 hysterectomy (LSH) | radical TLH with Sentinel
 lymph node biopsy

- **Hysteroscopic interventions**

diagnostic hysteroscopy with fractionated
 curettage | removal of myomas and polyps |
 endometrial ablation (resectoscope, global
 methods) | septum dissection | lost IUD

- **Operations on external genitals (laser)**

condylomata acuminata | paraurethral cysts | vaginal
 septa | vaginal tumours | labial cysts | hymenoplasty
 | benigne vulvar lesions | Bartholin's abscess |
 posterior plasty

- **Surgical treatment of CIN and VIN**

- **Operations for urinary**

incontinence and descensus

loop techniques | laparoscopic sacrofixation |
 prolapse surgery

SecuFix

Compact
 Hysteroscopes

resection
 master
